TO SPONSORS OF SCHOOL LUNCH PROGRAMS

Sponsors, on studying the SCHOOL LUNCH FOODS LIST, NO. 4, will find that it lists the specific foods for which sponsors may claim reimbursement from the Food Distribution Administration.

This list contains a sufficient variety of commodities to permit all sponsors to purchase the foods they need for preparing nutritionally-adequate meals. There are several points regarding the use of this list which should be emphasized:

The School Lunch Program offers sponsors a splendid opportunity of making a real contribution to food conservation by using a minimum of canned or other processed foods when there is an adequate variety of fresh foods available. It is recognized that due to labor shortages, adjustments in operations of lunch programs will be necessary in order to use fresh foods.

The SCHOOL LUNCH FOODS LIST, it will be noted, does not include canned foods. If such foods are purchased, sponsors will pay for them from their own funds.

The fats, which this month are included in the SCHOOL LUNCH FOODS LIST, are BUTTER, LARD, and SALT PORK; therefore, sponsors may not claim reimbursement for any other fats and oils.

No smoked or other processed meats appear on the SCHOOL LUNCH FOODS LIST. Therefore, the Food Distribution Administration cannot pay for such commodities as frankfurters, luncheon meats and bacon.

Lettuce is not included on the list. It will be found that the greens which are listed may, when cut up raw, be used in the same way in which lettuce would be served. Special effort should be made to make the maximum use of carrots and the greens on the SCHOOL LUNCH FOODS LIST because of their high vitamin and mineral content.

Ground meats, which appear on the SCHOOL LUNCH FOODS LIST, may be extended by the sponsor by mixing with the cereals.

Sponsors may not bill the Food Distribution Administration for any foods purchased at prices in excess of the CPA ceilings, and claims for such purchases will not be paid.

We wish to re-emphasize the statement on the SCHOOL LUNCH FOODS LIST which reads "It is your responsibility to buy and prepare foods economically, to buy only those foods that are needed for your program, and to buy foods having the highest protein and vitamin content which, in relation to price, will make the greatest contribution to children's nutritional requirements."
